About

I am a dedicated IT student at the Western Institute of Technology, currently in my third year of study. Passionate about technology and problem-solving, I have developed a strong foundation in software development, networking, and system analysis. I am eager to apply my knowledge in real-world scenarios and contribute to innovative projects. With a commitment to continuous learning and collaboration, I am excited to explore opportunities in the IT industry.

Web Development Experience

- Developed a full-featured to-do app using the MERN stack (MongoDB, Express.js, React, Node.js), demonstrating proficiency in modern web development practices.

- Focused on creating a user-friendly interface and ensuring seamless functionality.

Networking Experience

- Gained knowledge in networking concepts, including static and dynamic routing, VoIP, and inter-VLANs.

- Hands-on experience configuring and troubleshooting network devices, enhancing overall network performance.

Skills & Competencies

Programming Languages and Git

Software and Web Development

Problem-Solving and Analytical Skills

Communication and Collaboration

Adaptability and Continuous Learning

Certifications

Coursera

Foundations of User Experience (UX) Design

Education

Senior High School
